

Prescription Travel Medicine Kits

These kits come neatly packaged, saving you the time, trouble, and added expense of purchasing these items individually.

We feel that certain over-the-counter items and medications should be included in kits for international travelers due to the difficulty of acquiring these items in foreign countries and to eliminate the question of foreign medication equivalency. These kits are formulated for user-friendly self-medication with clear instructions on the appropriate usage of the medicines and supplies. Each of the following kits can also be altered to accommodate travelers entering areas with endemic malaria.

	Prescription Medications	Non-Prescription Medications & Supplies	Price
Basic Travel Medicine Kit	<ul style="list-style-type: none"> ▪ ciprofloxacin: broad-spectrum antibiotic for bacterial diarrhea, respiratory, skin, and urinary infections ▪ temazepam: short-acting hypnotic (sleep medication) ▪ meclizine (anti-nauseant) ▪ hydrocodone/acetaminophen (pain medication) 	<ul style="list-style-type: none"> ▪ oral rehydration salts ▪ antidiarrheal preparation ▪ antihistamine ▪ eye rinse solution ▪ ear plugs ▪ ibuprofen ▪ travel bag 	\$95.00
